RULES

PLEDGE CARDS are read aloud by each player before the first game.

QUESTION & ANSWER, **WHAT'S THIS** and **TRUE OR FALSE** cards all require a response and the longer or more detailed the more spaces forward. **UPS & DOWNS** cards are random events that give or take away our places. Cards are separated into 1, 2 and 3 note types covering **True or False**, **General Finance** and **Personal Finance** topics.

COUPLES MONEY question cards with 4 notes cover couple specific topics and are optional. If used you can use them to replace the 3 note deck, or mix them into the 2 and 3 note decks.

The Game Board starts at #1 and even if you lose points and have to go backwards, it can't be before #1.

SKIP. A player can skip at any time after hearing their question by saying **"I'm not game enough"**. The card is discarded and the next player takes their turn.

REASONABLE ANSWERS. Answers and hints are often supplied on the cards, but the player reading the card makes the final judgement on whether or not the other player's answer seems reasonable.

HOWGAMEAREYOU.COM/Resources

The winner is the player whose marker first reaches the FINISH.

THE WINNER.

They draw 5 **PERFORM OR PAY** cards and reads them while the losing player gives them a 1-minute massage. The winner selects 1 card for themselves and 1 for the other player. Record the selected cards in writing, memory or a photo, and the task must be completed within 14 days OR they have to pay \$50 to a charity or someone in need and preferably anonymously.

VARIATIONS

Modify the game. It's your experience so change it if you want e.g. only play the 1 note cards for an easier game with someone, OR only play the 2 and 3 note cards for something harder but faster. You may want to remove certain cards on topics that don't interest you, or every time someone gets zero points they have a drink or put \$5 towards dinner. It's totally up to you and if something works well, please let us know as we want to keep improving too.

TWO COUPLES

Two couples or friends can play. **Couple 1 Player 1** is the first questioner, **Couple 1 Player 2** answers and moves their couple marker the places earned on the board. **Couple 2** does the same for their turn and moves their marker. **Couple 1** now swap questioner and answerer, earn places and moves their marker on the board. Continue until the first couples marker crosses the FINISH.

The winning couple receives a 1-minute massage from the other couple. 10 **PERFORM OR PAY** cards are chosen overall, and each person chooses any 1 of the 10 cards for themselves to complete over the next 14 days and reports back to their partner or the group.

GROUPS

Groups of players and also teenagers will have their chance with the additional games planned for launch later, with added group questions and challenges. Register your interest on our website to be the first to play plus early bird pricing.
